Welcome to the second English newsletter about the Kinesiology Conference of 2, 3 and 4 october 2014. Only three months went by... but enough happened to fill a year! We are happy to tell you that the program is now complete, the exhibitions are nearly completed and we have a lot of registrations, with more coming in every day. So... here is the latest news!

What is going to happen?

Every day of the conference there will be an exhibition. Around 12 to 14 different entrepreneurs will come and show you what they have to offer. You will find essences, tuning forks, books, energy-balls... but also advice on how to build your website, network and presentations. We organized the three exhibitions around different themes: "Health Entrepreneurship", "Tricks and Tools" and "Education". If you think the participants of the conference will benefit from your products or services? [Contact us](#) to learn more about the possibilities and hopefully we will welcome you in october!
